CHANGE
Reported in scholar’s social and academic confidence by parents
2018 STAFF

HYPE prides itself on being a space where young leaders are developed and can grow personally and professionally. These efforts are led by a well qualified Executive Team composed of educators, program managers, and professionals whose track records reveal continued dedication to the success of children. To ensure scholars know what’s truly possible we hire Servant Leader Interns (SLI) (our college aged classroom facilitators) and Site Coordinators (SC) who engage with them daily.

SC & SLI Secondary Schools Attended

SC & SLI Gender Breakout

SC & SLI Age Distribution
2018 STAFF (CONT)

HYPE supports the guidance of our high school scholars on their path to post secondary education and their careers. The Junior Servant Leader Interns are able to support the site staff in ensuring a fantastic experience for every scholar while still being wholly nurtured in their overall development.

READ ALOUD GUEST

We start each day with a jubilant celebration called Harambee. Next, we invite one community member or supporter to share their professional background and life experiences just prior to reading a short text to the scholars. These daily interactions provide exposure to careers students may not know about.

Extraordinary environment and supervision for the Harambee Youth at Bruce School. - E. Glover

This was my first HYPE adventure. The enthusiasm of the young scholars and the staff was contagious. They made me feel welcome and they were responsive to the two short readings (both poems) I did. - J. Murtha

2018 Total Read Aloud Guests

63

Read Aloud Guests were invited to visit all five sites four times a week.

I truly enjoyed reading to a wonderful group of children; who seemed to be mesmerized. Would love to read again. - M. Davis
